

Don't waste
your energy!

Regular maintenance increases system efficiency and maximises the return on your investment.

Micro Energy recommends annual servicing of your solar system.

What you get...

- ✓ A detailed clean of your Solar PV Inverter & panels
- ✓ Inspection of system integrity including racking, wiring, junction box's, switches & cct breakers
- ✓ Replacement labelling compliant with industry standards
- ✓ kW.h production tests of your system to ensure it still meets expected energy outputs
- ✓ Advice if required on impacts from shading
- ✓ Written system performance report
- ✓ Great opportunity to discuss upgrade options or your concerns with an industry specialist

Solar Servicing
